

PIN Code for Restricting Calls

PIN Code for Restricting Calls

Most organisations have some rules about who can make calls to where. It may be that your warehouse team can only make local and national calls and your accounts team can call local, national and international calls.

Quick Guide:

1. Log into <https://now.tel2.co.uk> > select the number you want to Restrict Outbound Calls.
2. Select **CloudPBX > Outbound Calls -> Authorisation PIN Code.**
3. Set your preferences.
4. Click to Save
