

Remote Dial Tone

Remote Dial Tone

When you are out of the office and don't want to make calls from the phone's account you have with you, make the call through the CloudPBX account. Meaning the phone's account you have with you doesn't pay for the call but the CloudPBX account does. This is great if your overseas so that you don't need to accrue the international calling rates on your phone.

Quick Guide

Step 1: Setting up Remote Dial Tone

1. Log into <https://now.tel2.co.uk> > select number you wish to set up remote dial tone on.
2. Select **Settings > Advanced > Remote Dial tone.**
3. Click **enable remote dial tone service.**
4. Choose remote dial tone service option.
5. Select a PIN number.
6. Click **Save settings** to update.

Step 2: Using Remote Dial Tone

1. Call your CloudPBX number with a phone listed for Remote Dial Tone.
2. Enter your PIN and wait for dial tone
3. Make calls as usual.

Make calls from your account from another phone by remotely dialling in to initiate the call

☐ Enable remote dial tone service for your number?

Select Remote Dial Tone service option:

- ✓ Divert selected callers only to Remote Dial Tone Service
- Divert all callers to Remote Dial Tone Service

Remote Dial Tone PIN Number: *(Service will not work if you do not specify a PIN number)*

If selected callers option is chosen, enter numbers to divert to Remote Dial Tone Service: (enter one number per line and include the area code)

NOTE: Calls made out to remote dial tone numbers are charged as outbound calls. You will need to ensure you have enough calling credit in your account to make the call.
