# Billing Questions
Billing CDR Feed Instructions

Billing feed

- **Summary:** Accessing call recordings.
- **Detail:** Tel2 "Calls Records" are accessible from the moment of call completion and are available from the [Tel2 Customer Portal](#).

Tel2 Portal

All billing, voice functionality, numbers management and connectivity options are managed from the [Tel2 portal](#). Within the [Billing Records](#) section subscribers can view by day, line number and Call Type plus across the previous 12 months call activity.

If enabled, Call Records are discoverable as MP3 from within the [Call Record](#) interface.

Live API billing

Tel2 provide developers with a programmatic assess to retrieve CDR via a simple

Billing Questions

API (HTTP GET). The following URL and formatting provides access to the live billing fee.

https://now.tel2.co.uk/customer/feed?login=xxxxxxx&password=xxxxxx&fromid=x

1. **login**: Tel2 account number
2. **password**: Tel2 account password
3. **fromid**: tells the system from which id you wish to fetch rows (including that ID). Use fromid=1 initially to collect all CDR in the feed. (We keep around 60 days worth available on the feed)

Call Types
